WARRANT FOR ANNUAL MEETING

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Mont Vernon in the
County of Hillsborough in said State, qualified
to vote in Town Affairs:

You are hereby notified to meet at the Town Hall
in said Mont Vernon on Tuesday, the fourteenth day of
March next, at nine of the clock in the forenoon, to act
upon the following subjects:

1. To choose all necessary Town Officers for the
year ensuing.

2. To raise such sums of money as may be necessary
to defray town charges for the ensuing year and make
appropriations of the same.

3. To see if the Town will vote to allow a discount
on property taxes of three per cent if paid in full within
thirty days from the date of issuance of tax bills, and a
discount of two per cent if paid in full within sixty days
after the date of issuance of tax bills.

4. To see if the Town will authorize the Selectmen
to borrow money in anticipation of taxes.

5. To see if the Town will authorize the Selectmen
to administer or dispose of any real estate acquired
through Tax Collector's deeds.

6. To see if the Town will vote to accept Town Road
Aid for construction of Class 5 roads, and raise and ap-
propriate for said purpose the sum of \$518.98. (State will
add \$2075.90.)

7. To see if the Town will raise and appropriate the
sum of \$80.00 as its contributing share for the services
of the Milford Nursing Association.

8. To see what action the Town will take to establish rental rates for the Town Hall.

9. To see if the Town will vote to authorize the Selectmen to appoint a Zoning Commission of five members, with duties as set forth in Chapter 51, Sections 50-71, Revised Laws of New Hampshire, 1942, as amended by Chapters 110 and 278, Laws of New Hampshire, 1949, to study and recommend to the next town meeting the boundaries for zoning districts and appropriate regulations to be enforced therein. Such commission to make a preliminary report of its recommendations and hold public hearings thereon. The report and recommendations of the Zoning Commission shall be published in full in the warrant calling for the town meeting at which action on the proposed zoning ordinance will be taken. (By Petition.)

10. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty-seventh day of February, in the year of our Lord nineteen hundred and fifty.

R. C. MASON,
F. C. REAGAN,
G. O. CARLETON,
Selectmen of Mont Vernon.

REPORT OF CEMETERY TRUSTEES

It is with pleasure that we are able to report that the money for the Gates (\$2500.00) that was left in the will of the late Clara H. Kendall has been used and gates erected. We are including a picture of the gates with this report.

There was a small amount of money (bank interest) left over after settling the contract and this was used to repair and erect the old wooden gates on the east side of the cemetery.

The \$400.00 appropriation for map is still unexpended and is shown in the balance on hand.

DALAND MEMORIAL LIBRARY

With the assistance of interested friends, the Library has acquired 121 books this year, and the circulation of books and magazines has equalled last year's, with an additional number of 145 from books loaned by the Bookmobile. This would have totallèd more if service to adults had not been discontinued.

The Independent Dance Committee very generously donated \$50.00 to the Library, thus making a valuable contribution to the community.

Books new and old are gratefully acknowledged from the following people:

Mrs. Auryansen, Mrs. Orie Raymond Bailey, Mrs. Daniel, Mrs. Gillespie, Mrs. Gurnett, Mrs. Kittredge, Mrs. Martin, Catherine Morgan, Mrs. Searles, Mrs. Sevigne, the Wednesday Club, Mr. Wood, and the Public Service Company of New Hampshire gave a Life of Edison.

There are nine monthly magazines available with the addition of the Geographic given by Mrs. Bailey, and as usual, we are indebted to the publishers of the Milford Cabinet for the paper.

Three of the books given are memorials. Mrs. Sevigne gave a valuable book on garden flowers in memory of Mrs. Annie S. Perham, and the Wednesday Club has given a Life of Gandhi and a Biography of The Peabody Sisters of Salem, in memory of Mrs. Helen Hooper and Mrs. Mabel Davis, two members who are lovingly remembered.

In Epping a Memorial Book Shelf has been established, for which books are given in memory of deceased members of the Woman's Club, with the books chosen as far as possible on a subject in which the member was interested.

This would be a worthy project here, if broadened

to include books given by anyone in memory of a friend or relative.

No spectacular events or changes are to be recorded for 1949, but the usual untiring effort to meet the needs and desires of the community, especially the school children, has been followed as far as possible.

Respectfully submitted,

RUTH S. ENDREJAT,
Librarian.

FOREST FIRES – OUR MOST SHAMEFUL WASTE

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 per cent of all forest fires result from human carelessness and can be prevented. Consequently, we may say “Forest Fires are our most shameful waste.”

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public – YOU!

The primary objective of all fire fighters is PREVENTION – fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

District Chief.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Mont Vernon:

I herewith present my eleventh report, the thirty-first in the series. I commend to your attention the various reports of my colleagues, statistical and financial, which appear in these pages.

1. *Teachers*

A. The staff remains the same as printed in the financial report.

B. If any who read these pages are considering occupations for their young people, might I suggest the field of teaching? It is now much better paid than formerly. The prospects for security, improved working conditions and continued employment are indeed good. For the next few years, the need for teachers in the elementary schools will be very great. Kindly remember that the number of candidates in training should be three in elementary to every one in secondary and that Mont Vernon, to replace its staff, ought to send one candidate to training school every three or four years.

2. *School Philosophy*

Change is inevitable. Schools, like life, cannot remain static. They change because people change. They try to meet the needs of the children for the present and for the life they will lead in the future. Some of the following may point to the way it is being done in a few subject fields. They are not confined to any one grade level, but extend throughout the system.

A. Three R's.

A nationwide survey among adults shows that six out of ten adults believe children are better taught in reading than they were. America bought over 50 million newspapers every day last year, and think of the weekly papers and magazines that circulate to the mil-

lions. The modern reading program has been developed so that children read more books than ever, read faster and with greater understanding.

Writing is stressed in the early years of school. It is one of the essential skills which every person should possess. The big goals are legibility and speed.

Modern instruction in arithmetic conforms to the basic needs and use of this tool. Problem-solving occupies an important place. Faults are corrected by remedial exercises. A teacher can, by tests, determine how well her pupils rate with each other and with similar grades in other schools.

The amount of time spent on these three R's is much greater than it was a hundred years ago. The techniques have improved, and the schools teach them better than ever before.

B. Health

There are many ways in which the schools contribute to the health of the child. The School Board mentions one, and I would emphasize that—physical education. We are very proud of that program. This most important field and its close ally, recreation, are contributions of the modern school to the development of the whole child.

C. Music

This is the one subject for everyone. All manners and kinds of people meet on common ground in music. There is perhaps no other experience of the school program that is carried over more completely into adult life than music appreciation and performance. To be sure, there are unmet needs in this field, but generally greater enjoyment, opportunity for display of special talents, appreciation are end results.

D. Social subjects

These include history, geography, economics, civics, sociology. Their purpose is to create a more effec-

tive citizenship. History, we must have to understand the backgrounds. We study the past to learn about the present, the present to predict the future. Geography of towns, states, nations leads to understanding of the relations of people with each other. Economics covers problems of capital and labor, tariff, exchange, banking, price, rent and hundreds of others closely associated with daily living. Sociology deals with the family, stability of home, population growth, crime, education, sanitation and many other subjects close to human relationships. Civics is the study of the principles of our government, including federal, state and local.

3. "Stork and School Board"

This is a quotation from a recent article. It leads to a discussion of needs. The following table illustrates the present enrollment projected into the next five years with the help of census and predicted entering classes. I do not guarantee the number, since people move away and come to town too often to allow exactness.

B. Authorities point out that the teacher load should

be 20-25 pupils in Grades 1 through 3, and 25 to 30 in Grades 4 and 8, and not more than 25 in any room of mixed grades. These are limits for effective teaching.

Therefore, there is no problem in this regard. The change which was made about three years ago was a wise one and should care for the enrollment listed for a number of years without adding extra room or an extra teacher.

4. *Unmet Needs*

A. South side of the building should be shingled.

B. Whole building needs exterior paint job.

C. Some re-decorating of interior is also in order.

D. Art instruction—in conjunction with other schools of this supervisory union—should receive our attention.

5. My appreciation for all the worthwhile activities of a busy school year go to the School Board, teachers, pupils and citizens. In this connection, I am awaiting anxiously the success of the “window” study which started so auspiciously in the recent workshop.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools.

January 21, 1950.
